

Dear Friends & Partners;

June 2016

Our schedule is full, and it is our hope that this will be one of the last "Deputation Prayer Letters" we send out as we are on pace to finish the deputation process by the end of July. That said, in the last month our actual support has risen to 84%. Additionally, we have been notified by several other churches that they have voted or decided to partner with us. This additional support should put us above 90% once it begins coming into our office at Baptist International Outreach. This progress means that we only need about 8 new partners to reach our goal for monthly support. If the Lord would have you join our team, please let us know so that we can plan accordingly.

We have some good news! It looks like we will have an opportunity to go to Bolivia in August before beginning Language School. There have been many changes in the country since we were last there and having a fresh perspective will be a real benefit to us in many areas. We cannot tell you how pleased we are to have a chance to make this trip as it will allow us to have a better grasp of exactly what we will need to have on hand when we land in Bolivia permanently.

Speaking of what we will need upon our arrival on the field. One pastor recently said "you have not been on deputation long enough for your support to accumulate sufficiently to cover the expenses you will have once you arrive in Bolivia." Another pastor advised us to specifically share our needs in our Prayer Letters so our partners can better pray and perhaps help with these needs. Thus, we began including a small list at the bottom of our letters that delineates the expenses we will face as we move closer to Bolivia. We would like to ask you to prayerfully consider if the Lord might enable you to help us with any portion of these needs.

God uses your partnership with us and other Missionaries to send the Gospel to the regions beyond. For that we are most grateful, and we want to thank-you for taking an interest in what He is doing in our lives and work as we return to the field. You have been a blessing and are helping us resume a worthy work. It is our hope and prayer to honor God and represent you well among the Bolivian people! Please pray for us as we begin transitioning to our work in Bolivia.
